

Pasture with trees in livestock farms provide more than meat and milk

MINISTRY FOR FOREIGN
AFFAIRS OF FINLAND

Trees in our livestock farms provide us with many benefits:

- Timber
- Fruits
- Firewood
- Shade
- Forage
- Landscape

**Principal arrangements
of trees on farms in Belize:**

- Scattered
- In line
- Blocks

Which trees grow well in our livestock farms and can benefit us?

- Madrecacao protects the soil
- Guanacaste feeds the cattle
- Cedar lumber has good market
- Coconuts feed us and can be sold

**Let's work together to improve
timber production and other wood
products in our farms**

**Our extension
personnel are
here to help you**
